Professional Summary

Motivated Computer Science Engineering graduate and Java Full Stack Development Trainee with hands-on academic and training project experience in building RESTful APIs, Spring Boot applications, and relational database systems. Proficient in object-oriented programming, database management, and backend architecture. Eager to contribute foundational technical skills, rapid learning capability, and collaborative problem-solving to an entry-level software engineering role.

Technical Skills

- **Languages:** Java (SE/EE), JavaScript, SQL (MySQL, PostgreSQL), Python, C
- **Frameworks & Libraries:** Spring Boot, Hibernate, JPA, JDBC, RESTful APIs, JUnit, Maven, Lombok
- **Web Technologies:** HTML5, CSS3, Responsive Web Design, JSON, XML
- **Developer Tools & Platforms:** Git, GitHub, Postman, Apache Kafka, DBeaver, AWS (Cloud Architecting), Linux/Unix
- **Core Engineering Concepts:** Object-Oriented Programming (OOP), Test-Driven Development (TDD), Connection Pooling, Asynchronous Messaging, Global Exception Handling, Agile Methodologies

Professional Experience & Training

Java Full Stack Development Trainee

Jan. 2024 – Present

Ducat India

Noida, U.P., India

- Participated in comprehensive hands-on training for enterprise Java technologies, building 15+ backend modules and RESTful endpoints utilizing Core Java, Spring Boot, and Hibernate/JPA.
- Designed and optimized relational database queries and schema mappings using DBeaver and MySQL, improving data retrieval efficiency for structured training projects.
- Implemented dependency injection workflows, service-repository layers, and centralized exception-handling mechanisms to establish clean software design patterns.
- Collaborated with peers using Git and GitHub for version control, managing pull requests, and resolving integration conflicts in team lab projects.

Cloud Architecture & Development Training

Aug. 2023 – Present

AWS Academy / Independent Practice

Ghaziabad, U.P., India

- Configured cloud infrastructure topologies utilizing core AWS components, VPC networking, IAM security policies, and storage modules.
- Explored asynchronous messaging pipelines and data streaming architectures using Apache Kafka during practical cloud deployment exercises.
- Authored clean backend business logic and unit test suites, reinforcing robust software engineering fundamentals.

Technical Projects

Student Management System | *Java, JDBC, MySQL, OOP, Singleton Pattern*

[GitHub Repository](#)

- Developed a modular Student Management System handling student records with clean separation of concerns and interface-driven architecture.
- Implemented centralized database connection pooling utilizing the Singleton design pattern and externalized configuration properties files.
- Added rigorous input validation, custom exception handlers, and full transactional CRUD capabilities for reliable data management.

Social Media Backend API (VibeHub) | *Spring Boot, Hibernate, JPA, MySQL, REST API, Lombok* [GitHub Repository](#)

- Built a backend REST API supporting user authentication flows, profile management, and relational posting operations using Spring Boot and Spring Data JPA.
- Mapped entity relationships (One-to-Many, Many-to-Many) via Hibernate ORM to streamline database join operations and structured queries.
- Applied architectural principles including Service-Repository patterns, Data Transfer Objects (DTOs), and validation pipelines to enhance maintainability.

Education

Krishna Engineering College

Ghaziabad, U.P., India

Bachelor of Technology in Computer Science and Engineering

Aug. 2021 – July 2025

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering, Operating Systems.

Certifications & Trainings

- **Certified AWS Academy Graduate** – AWS Academy Cloud Architecting (Amazon Web Services)
- **Data Analysis using Python** – Andip Foundation Skill and Career Development Center, Gurgaon
- **Java Full Stack Development Training** – Ducat India (Core/Advanced Java, Spring Boot, Hibernate, SQL)

Additional Details

Languages: English (Professional Working), Hindi (Native)

Soft Skills: Technical Communication, Cross-functional Collaboration, Complex Problem Solving, Sprint Planning

Date of Birth: October 5, 2003
